BOTNOMICS

Name	:- BitOne Token [BOT]
Total Supply	:- 1,000000 BOT
Decimal	:- 9
Blockchain	:- Binance Smart Chain (BSC)
Dex Listing	:- PancakeSwap
Liquidity Pool	:- 100% of BOTs paired with 5,000 USDT
Launch Prize	:- 0.005\$/BOT

To increasing the level of transparency and achieving true decentralization

- 📄 The entire supply of BOT has been listed on PancakeSwap.
- 📄 100% of the Pancakeswap LP tokens have been permanently burned.

This means that it is now impossible to break the liquidity pool or withdraw the provided liquidity in any unauthorized manner. This process makes BitOne Token more secure, ultimate decentralized, and transparent.

About BitOne Token (BOT)

we are committed to redefining the standards of **Transparency, Decentralization, and Community trust** in the crypto-currency world.

Our mission is to offer a Truly Decentralized Ecosystem **where every participant has equal opportunities** and full confidence in the integrity of the system.

Core values

Transparency

We believe in complete openness. BitOne ensures that every aspect of our BOT's distribution and management is transparent, giving our community confidence in our processes.

Decentralization

With a total supply of 1,000,000 BOT and a focus on decentralization, our token is designed to empower the community and eliminate central control.

Community Trust

Our approach emphasizes trust and fairness, creating a secure environment for all participants.

Commitment to fairness

Smart Contract Security

The BitOne Network contract is neither a proxy (upgradable) nor pausable, and there are no operator or admin accounts. This means that no one (including hackers, spammers, and other individuals) can withdraw BOT or USDT from the contract through unauthorized methods.

Ownership Renounce

To further our commitment to decentralization, the token contract ownership will be renounced, eliminating any central control and ensuring a truly decentralized project.

Innovative mechanism

Purchase-Protected:

BOT stands apart from typical tokens vulnerable to manipulation. Listed on PancakeSwap, but it cannot be directly purchased by anyone or large investors or whales.

This ensures market fairness and prevents sudden price pumps or dumps and maintaining a level playing field for all participants.

Earn and Swap with Ease:

Earn BitOne Tokens (BOT) by providing liquidity to the BitOne contract. Once earned, you can easily swap BOT and get USDT on PancakeSwap or Internal swap platform.

Registration charge 10\$/ID

- This charge will be transferred to the Liquidity Pool of PancakeSwap via the **BitOne Network smart contract**..
- The smart contract will utilize the 10 USDT to purchase BOTs at the live price from the Pancakeswap (DEX) and store the BOTs in the **BitOne Network smart contract**.
- The registration fee will continuously contribute to increasing the rate of BitOneToken (BOT).
- 10\$ charge is for lifetime

Giveaways

We're excited to build the BitOne network community, invited you to be a part of it with our exclusive BitOne token giveaway!

What's the Offer?

All registered users will be providing giveaway

500\$ as a LAUNCHING BONUS,

this bonus is limited to the first 5000 users only.

And it will be generated at a rate of **10% per month,**

Invite Friends & Earn More launching benefits!

Boost your rewards by inviting friends! For every referral, you'll earn additional USDT (\$):

-  **Level 1:** get 50 \$ per ID.
-  **Level 2:** get 50 \$ per ID (need 5 direct ID to open level2).
-  **Level 3:** get 50 \$ per ID (need 10 direct ID to open level3).

Flexible Claiming

1. The giveaway claim will be added to the payout wallet.
2. The giveaway can only be claimed once and will not be available in future.
3. To claim the giveaway, the user must provide liquidity and have at least one direct referral who has also provided a minimum of \$50 liquidity.

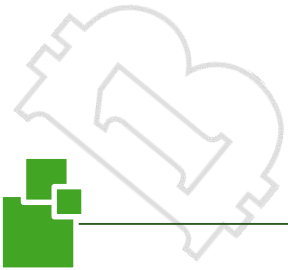

“

This is not just a plan or concept.....

it's an opportunity to transform your life.

Take the time to understand it fully; even a small mistake could impact your future. Make every decision with care. ”

Become a Liquidity Provider (LP)

Minimum liquidity provide - 50\$ (multiple of 100\$)

*An overall payout limit of **200% (2x)** or **300% (3x)** is applied to every liquidity provided (LP) by the participants or mentors*

*The payout will be generated at a rate of **0.66% daily (20% monthly)** based **on the available payout limit** until the participants receives the full return.*

Payout limit for participant - 200% (2x) of LP

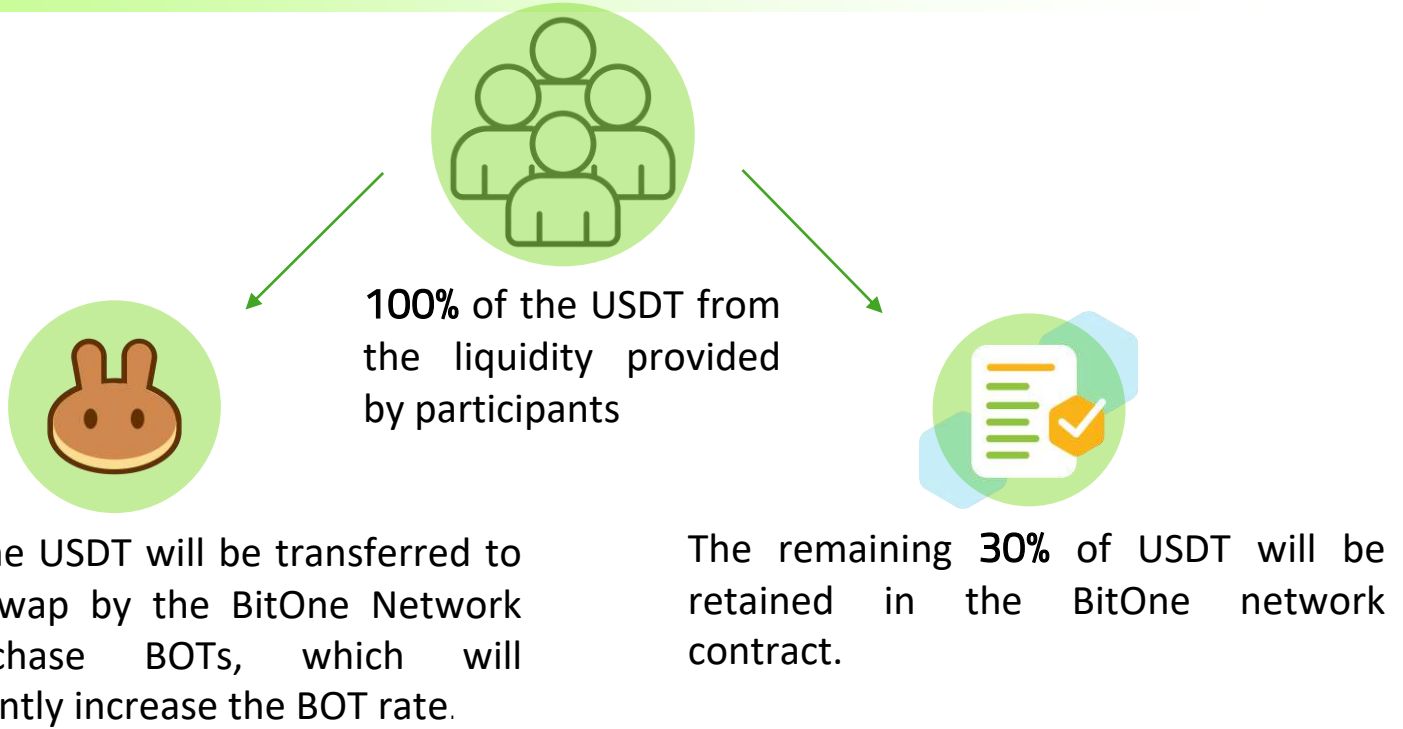

Payout limit for mentor - 300% (3x) of LP

(To become mentor – please check [page 19](#) global mentorship eligibility.

Smart contract execution

Withdrawal

two options for withdrawing their payouts, min get operation 10\$.

Get BOT - Users can withdraw their payout balance in **BitOne Token (BOT)** at the live market rate. *This option will transfer BOT directly to the user's registered wallet address, allowing them to hold or sell their tokens on **PancakeSwap** or **internal swap**.*

Get USDT - Users can choose to withdraw their balance in USDT. *30% of the user-provided liquidity remains in the contract and can be withdrawn as USDT. This mechanism helps to reduce unnecessary selling pressure on PancakeSwap and provides more stability.*

***Remember**, payout limit will reduced on every get operation.*

5% deduct on every get BOT and get USDT operation,
2% USDT goes to development & 3% remains in contract..

Network Marketing

For participants with big dreamers and the potential to grow the network, BitOne offers five powerful rewards to help you achieve significant financial success.

○ Direct reward – 10% of every LP

○ Powerful level reward – 10% of every LP

} From personal team business

○ Global Single line reward – 50% of every LP

○ Global jackpot reward – 10% only on 1st LP

○ Global mentorship reward – 10% only on 1st LP

} From global business

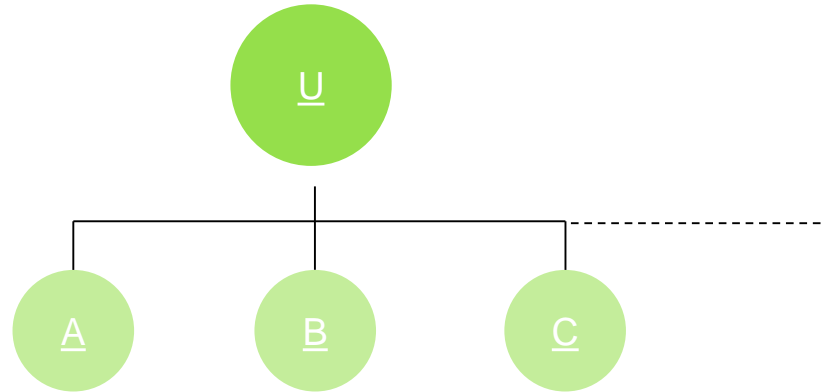

Direct reward – 10%

No qualification required, but must have 50\$ or sufficient payout limit in your wallet to receive this income: otherwise, it will lapse.

Earn 10% of the every liquidity contributed by participants you directly refer.

Global jackpot reward – 10%

Closing and distribution of jackpot reward from the BitOne contract on a daily basis.

Reward: The total 10% of the first liquidity provisions of Global Business will be equally divided among all the daily jackpot achievers.

This reward will be received only once by the qualified users.

Eligibility: A new user must refer 2 participants (minimum 50\$) within 24 hours from their 1st liquidity provision.

Only achievers must call the contract themselves to claim their jackpot reward.

Powerful level reward – 10%

*The leg with the highest business volume will be referred to as the **Strong Leg**, while the remaining legs will be categorized as **Weaker Legs**.*

Reward: Participants will receive 10% of the business generated from the all Weaker Legs, extending to an unlimited depth of level.

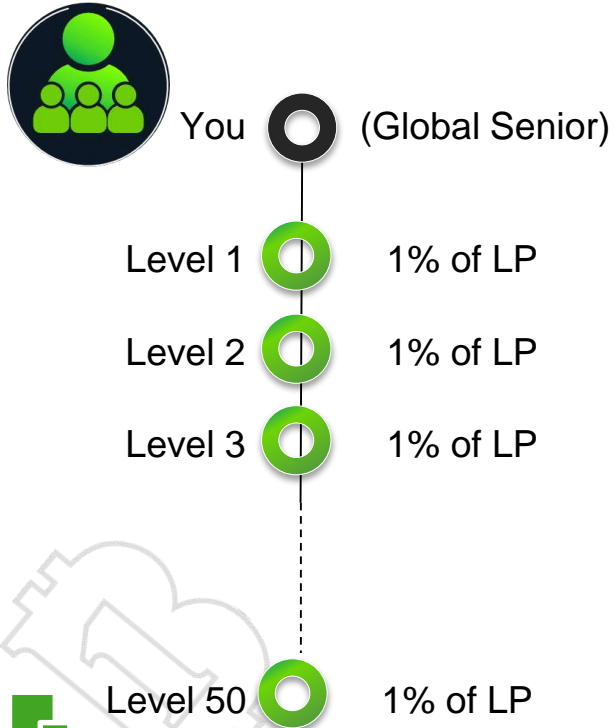

Eligibility: No additional requirement, but Business required from **minimum of 3 weaker legs** to claim powerful level reward.

Once claimed, the reward will be credited directly to the participant's payout wallet and the business from all legs will reset and start being counted again from that point till next claim.

Global single line – 50%

 **Reward:** Global Seniors will receive a **1% reward** on every liquidity contribution from 50 global participants, which is added to their single-line structure.

 **Eligibility:** To qualify as a  **Global Senior**, you must have 3 direct participants within 24 hours of your first liquidity provision.

Without meeting the qualification criteria, you will permanently lose the global single-line rewards.

Global mentorship reward - 10%

To qualify for the global mentorship reward, user must meet the eligibility within **30 days** from their **1st liquidity provision**.

- Reward:** 10% of the first liquidity provisions of Global Business will be shared equally with all qualified mentors on every Sunday. Along with this, mentors payout limit will also increase to **300% (3x) of next LP**.
- Eligibility:** Enroll 5 direct legs (each contributing at least \$50 in liquidity). and Required a **total of \$20,000 business** across all weaker legs.

*Only leaders can call the contract themselves to claim their mentorship reward.
Remember, without a payout limit, there will be no reward.*

(No operator address or additional permissions are granted in this contract)

SWOT analysis

STRENGTHS

- Fully decentralized, fostering community trust.
- High transparency with renounced contract ownership.
- Unique liquidity mechanism reduces direct selling pressure.

S

WEAKNESSES

- Limited accessibility; cannot be purchased directly.
- Reliance on user participation for liquidity.
- Low market awareness as a new project.

W

OPPORTUNITIES

- Growing interest in the DeFi market.
- Potential for partnerships to enhance visibility.
- Expanding user base as DeFi becomes more mainstream.

O

THREATS

- Market volatility affecting token stability.
- Regulatory risks impacting operations.
- Intense competition in the DeFi space.

T

🌐 Join BitOne Network

Joining the BitOne Network is easy!

💰 Registration Requirements

To register, you need:

- 1 \$ OF BNB
- 10 USDT

📈 Provide Liquidity

Contribute liquidity based on your budget and enjoy the benefits!

👛 Easy Withdrawals

Withdraw your profits with ease and experience the rewards!

Join us in redefining the future of cryptocurrency with BitOne Token (BOT).

By participating, you're not just joining a project;

you're becoming part of a revolutionary movement towards a more transparent, truly decentralized, and community-focused crypto space.

Be Brave. Be Transparent. Be BitOne!

Thanks
